

Better kiosks through intelligent design...

Tucson Kiosk

Data Sheet

Featuring 19" or 22" All in One Style Touchscreen PC System

The Tucson is a patented interactive Kiosk that provides an eye catching and engaging self-service experience with a 19" (up to 22") all-in-one LCD touch screen computer. The unique design coupled with its ample overhead signage panel commands attention, effectively enhancing your corporate brand and showcasing your kiosk application. Despite the compact footprint, the Tucson generously accommodates a wide range of transactional components such as; a card reader, barcode scanner, Wi-Fi, printers, speakers, trackball and keyboard. The user friendly setup, built to last construction, easy portability and shipping features make the Tucson a customer favorite for quick deployment in a wide array of settings.
