

Better kiosks through intelligent design...

Metro22 Kiosk

Data Sheet

Featuring 22" Portrait Mounted Wide Angle View Touch Screen Monitor

The Metro22 Information Kiosk is a fresh take on a customer favorite. Staying true to the modern and sleek design concept of the Metropolis, we upgraded this kiosk with a 22" widescreen monitor set in portrait mode. The upgraded monitor draws attention and promotes user interaction; its generous viewable and workable area is perfect for software that utilizes an onscreen keyboard. The Metro22 retains the customization flexibility of the Metropolis, providing a large graphic area and housing an impressive amount of standard and optional components. Sophistication is reborn with the Metro22, its compact footprint, versatile configuration, and eye-catching aesthetic makes it an ideal solution for wayfinding, educational and informational applications.
