

Better kiosks through intelligent design...

Monaco Gaming Kiosk

Data Sheet

Featuring a Generous 24" Advertising LCD and Enhanced CPU

Streamline traffic and offer new and exciting rewards to your players with the Olea Gaming Kiosk. This stylish kiosk features a 19" interactive LCD touch-screen and a generous 24" advertising LCD. To maximize ROI, this kiosk was equipped with an expansive computer system that allows both LCD monitors to operate simultaneously. For added versatility, hardware options include magnetic card scanner, bar code scanner, and printer options ranging from tickets to player loyalty cards. A flexible addition to the Olea Specialty Kiosks family, this well-rounded gaming kiosk can be easily configured around your casino's specific player loyalty parameters. *Olea Kiosks was named one of the Sands Top 50 Vendors of 2012 and the Olea Gaming Kiosk is a trusted solution for users of the Bally Tech software*
