# MILAN LANDSCAPE KIOSK

Available with four different touch-monitor sizes, Milan is a superior solution for any facility that needs to inform, direct or influence visitors. Like all of Olea's products, it testifies to what we mean by "Better kiosks through intelligent design."

## BRINGING EXCELLENCE TO THE GUEST EXPERIENCE

- Retail
- Wayfinding
- Interactive digital signage
- Product demonstrations
- Loyalty programs
- Advertising
- Virtual receptionist
- Product or facility information
- Tradeshow presentation
- Scheduling

## OLEA KIOSKS

Better Kiosks through Intelligent Design

Forty years and countless customers later, Olea Kiosks has become the one-stop-shop for high-quality, innovative self-service solutions for Fortune 500 companies and smaller brands alike. From QSR giants to the world's leading athletics company, Olea has worked with the best brands in business.

We manufacture every one of our kiosks at Olea's Los Angeles headquarters while working with clients across the globe to develop innovative solutions that provide the best user-experiences and deliver the highest ROI.

## SOME OF OUR SPECIALTIES

**Healthcare.** The medical profession is still a relative newcomer to self-service. While some kiosks confuse size and cost for excellence, Olea's line of sleek, elegant and small-form-factor units make it easy for facilities of all sizes and budgets to join the EHR revolution and provide a best-in-class patient experience.

**Foodservice.** Competition among QSR and Fast Casual brands is more fierce than ever, all while consumers are demanding more menu choices and better ingredients. Olea's kiosks—inside or at the drive-thru—can increase ROI by driving increased throughput, improving order accuracy and asking for the up-sell with every order.

**Gaming.** As casinos fight to prosper amid changing demographics and player trends, they find themselves adopting new technologies, and Olea Kiosks is leading them into the world of self-service. Our technology helps build brand loyalty, expedite check-in/check-out, bust queues, sell event tickets and more. No wonder casinos from Las Vegas to Macau get their kiosks from us.

**Custom.** Olea Kiosks is known as the "go-to" company for beautifully designed custom kiosks. With decades of experience on hundreds of unique projects, placing over 10,000 specialty units in the market, we feel confident saying we are the industry's leading provider of custom self-service solutions. To earn clients like Nike, Kaiser Permanente and FedEx, you have to be the best.

## THE MILAN LANDSCAPE KIOSK

Sleek. Friendly. An interactive digital display that will impress your guests as much as it helps them.

---

Make an impact with the Milan Landscape Kiosk.

This stunning pedestal-style kiosk was developed for interactive digital signage applications, but due to its incredible adaptability, the Milan is well-suited for a number of other roles, such as wayfinding, product information, tradeshow demos and more.

It features high-grade digital signage monitors built for 24/7, year-round operation. This kiosk can accommodate virtually any single or multi-touch LCD monitor with the option to orient it to portrait or landscape mode.

Because Milan accommodates larger monitors, it allows deployers to install split-screen application functionality: part of the screen can show images of a product, for example, while another part can display a map to its location in the store.

The Milan can be configured with multiple peripherals, including thermal printers, media players, magnetic and smart card readers, proximity sensors, web cams and QR/barcode scanners.

The Milan. Performance on a pedestal.

## A CLOSER LOOK AT MILAN LANDSCAPE
