# VERONA HEALTHCARE KIOSK

Olea's flagship healthcare offering is the industry's only no-effort height-adjustable kiosk, featuring standard and optional components for virtually any check-in role. Like all of Olea's products, it testifies to what we mean by "Better kiosks through intelligent design."

## BRINGING EXCELLENCE TO THE PATIENT EXPERIENCE

---

- Patient check-in
- Co-pay remittance
- Balance collection
- Personal info updates
- Photo ID
- Biometric scanning
- Insurance-card scanning
- Facility wayfinding
- Scheduling

## OLEA KIOSKS

Better Kiosks through Intelligent Design

Forty years and countless customers later, Olea Kiosks has become the one-stop-shop for high-quality, innovative self-service solutions for Fortune 500 companies and smaller brands alike. From QSR giants to the world's leading athletics company, Olea has worked with the best brands in business.

We manufacture every one of our kiosks at Olea's Los Angeles headquarters while working with clients across the globe to develop innovative solutions that provide the best user-experiences and deliver the highest ROI.

## SOME OF OUR SPECIALTIES

**Healthcare.** The medical profession is still a relative newcomer to self-service. While some kiosks confuse size and cost for excellence, Olea's line of sleek, elegant and small-form-factor units make it easy for facilities of all sizes and budgets to join the EHR revolution and provide a best-in-class patient experience.

**Foodservice.** Competition among QSR and Fast Casual brands is more fierce than ever, all while consumers are demanding more menu choices and better ingredients. Olea's kiosks—inside or at the drive-thru—can increase ROI by driving increased throughput, improving order accuracy and asking for the up-sell with every order.

**Gaming.** As casinos fight to prosper amid changing demographics and player trends, they find themselves adopting new technologies, and Olea Kiosks is leading them into the world of self-service. Our technology helps build brand loyalty, expedite check-in/check-out, bust queues, sell event tickets and more. No wonder casinos from Las Vegas to Macau get their kiosks from us.

**Custom.** Olea Kiosks is known as the "go-to" company for beautifully designed custom kiosks. With decades of experience on hundreds of unique projects, placing over 10,000 specialty units in the market, we feel confident saying we are the industry's leading provider of custom self-service solutions. To earn clients like Nike, Kaiser Permanente and FedEx, you have to be the best.

## THE VERONA HEALTHCARE KIOSK

Push-button ADA compliance with direct roll-up wheelchair access

The Verona is a fully ADA-compliant, adjustable-height patient healthcare kiosk solution.

With the press of a button, the Verona can raise and lower over a 10-inch range, providing easy access for all patients, standing or sitting. The extended front console accommodates wheelchair users and is compliant with forward-approach ADA requirements as well as HIPAA privacy regulations.

The standard components, including capacitive touch technology with accurate onscreen signature capture, EMV-readiness, duplex ID scanner and printer, are all designed for easy use by all patients. Optional components include a barcode scanner, web camera, Wi-Fi adapter, audio headphone jack and 8.5" thermal printer.

Built with serviceability in mind, the quick-change hardware system can be accessed and serviced easily and efficiently. All internal systems of the Verona are accessible through the front of the unit, making it perfect for placement against a wall or with another Verona unit back-to-back. A true turnkey solution for providers, the Verona is fully compatible with EHR products from Epic, Siemens, McKesson and others.

Verona's easy-open front panel (shown) and quick-change hardware make maintenance a breeze.
