
Data Sheet

The Sleek and modern Austin Wallmount Kiosk.

Wall Mounted solutions are tricky to get right. We're proud to say that the Austin has gotten it right and then some. It fits snug against the wall, remaining compact and modern to the eye. However, it doesn't sacrifice any functionality and provides for great branding opportunities much like the freestanding model.

The Wall Mount Austin allows you to make the best use of your valuable floor space, and not worry about any complex mounting schemes to get your solution up and running. We've also made service a breeze as the entire face of the kiosk serves as the door to the interior. Enjoy some extra work space as you easily change the paper in your POS Printer.
