

DETROIT DRIVE THRU KIOSK

DATA SHEET

TOUGH, USER-FRIENDLY KIOSK FOR ANY DRIVE-THRU BRAND

More efficient. More affordable. In other words, more Olea.

Drive-Thru orders are the lifeblood of QSRs across the country. Now comes the Detroit to improve speed, accuracy and ROI.

With 70 percent of QSR sales coming from the Drive-Thru window, speed, accuracy and up-sells are key to staying in the black. Olea's new Detroit masters them all.

BRINGING EXCELLENCE TO THE GUEST EXPERIENCE

- Fast food
- Coffee shops
- Prescription pickup

DETROIT DRIVE-THRU KIOSK

FAST, ACCURATE AND OUR MOST EFFICIENT DRIVE-THRU KIOSK EVER.

Our new drive-thru kiosk is named for the city known for cars, American ingenuity and grit.

The Detroit brings those elements together like no other unit on the market. It features substantial engineering advances while costing as much as 30 percent less than its predecessor.

Users will be able to see the 32" viewable monitor with higher clarity even in direct full sunlight. The advanced multi-touch touchscreen cuts down on "fat-fingering," providing a simpler, more accurate user experience. The unit is protected by an efficient, low-voltage advanced cooling system; automotive-style door gaskets; a high temperature industrial computer system; and tough, outdoor-rated compression security locks.

With multiple graphics and branding options, the Detroit also can be deployed freestanding or mounted on a column, post or wall, all with optional EMV compliant card-reading capability.

The Detroit gets the order right, gets it faster and can be programmed to always ask for the up-sell. How's that for special sauce?

A CLOSER LOOK

AT DETROIT DRIVE-THRU

- Custom graphics, overhead signage and other branding options are available
- Presence-detection
- EMV-compliant payment options
- Intercom
- Webcam

REDEFINING SELF-SERVICE TECHNOLOGY

ABOUT OLEA KIOSKS

CONTINUING A PROUD HERITAGE OF EXCELLENCE

Inspired by a true passion for his craft, master carpenter Fernando Olea began a tradition of bringing his customers' ideas to life back in 1975. He started designing, engineering and producing furniture, cabinetry, display exhibits, commissioned works of art and, later, kiosks in his small, rented RV garage in Downey, California. And Olea was born.

From those humble beginnings to the company's current high-capacity manufacturing facility in Southern California, Olea Kiosks continues to be driven by our founder's innovative spirit, with an old-fashioned commitment to quality, craftsmanship, and service. More than 40 years later our network of 35,000 kiosks registers over 100 million touchpoints per year and we remain a family-owned and operated company. Olea continues to push the limits of kiosk design, using our curiosity and intuition to find new self-service solutions that create a lasting impact for our customers.

AN UNPARALLELED COMMITMENT TO QUALITY AND SERVICE

At Olea, we go beyond producing kiosks that simply meet your technical requirements. We engineer self-service solutions that enhance our clients' brands and complement any space where they are implemented. The following in-house departments work together to consistently deliver attentive customer service and innovative kiosks that comply with our strict quality control guidelines.

- Consulting
- Industrial Design
- Creative Consulting and Graphic Creation
- Mechanical and Structural Engineering
- OEM Manufacturing
- Integration Services
- IT Department (for product testing, computer ghosting services and hardware selection/consulting)
- Powder Coat Painting
- Certification Services
- Patent Services
