REDEFINING SELF-SERVICE TECHNOLOGY

ABOUT OLEA KIOSKS

CONTINUING A PROUD HERITAGE OF EXCELLENCE

Inspired by a true passion for his craft, master carpenter Fernando Olea began a tradition of bringing his customers' ideas to life back in 1975. He started designing, engineering and producing furniture, cabinetry, display exhibits, commissioned works of art and, later, kiosks in his small, rented RV garage in Downey, California. And Olea was born.

From those humble beginnings to the company's current high-capacity manufacturing facility in Southern California, Olea Kiosks continues to be driven by our founder's innovative spirit, with an old-fashioned commitment to quality, craftsmanship, and service. More than 40 years later our network of 35,000 kiosks registers over 100 million touchpoints per year and we remain a family-owned and operated company. Olea continues to push the limits of kiosk design, using our curiosity and intuition to find new self-service solutions that create a lasting impact for our customers.

AN UNPARALLELED COMMITMENT TO QUALITY AND SERVICE

At Olea, we go beyond producing kiosks that simply meet your technical requirements. We engineer self-service solutions that enhance our clients' brands and complement any space where they are implemented. The following in-house departments work together to consistently deliver attentive customer service and innovative kiosks that comply with our strict quality control guidelines.

- Consulting
- Industrial Design
- Creative Consulting and Graphic Creation
- Mechanical and Structural Engineering
- OEM Manufacturing
- Integration Services
- IT Department (for product testing, computer ghosting services and hardware selection/consulting)
- Powder Coat Painting
- Certification Services
- Patent Services
