REDEFINING SELF-SERVICE TECHNOLOGY FOR HEALTHCARE CHECK-IN

AUSTIN—FOR HEALTHCARE CHECK-IN DATA SHEET

COMPACT AND VERSATILE

The Austin kiosk was meticulously engineered to be the most flexible solution in the kiosk industry. Its compact footprint, attractive aesthetics, and rugged security make it the perfect choice to deploy in any healthcare setting. Dress it up with custom graphics or keep it simple and elegant, the choice is yours.

While this self-service solution is simple in nature, the Austin can be configured in various ways to deliver check-in thoughtfully.

BRINGING EXCELLENCE TO THE PATIENT EXPERIENCE

Self-service kiosks help to improve profitability while reducing operational costs. Not only do kiosks enhance the patient experience, these systems can also redirect staff to spend more time on patient care. It's a win-win solution.

PATIENT BENEFITS

- Reduced time spent in line to check-in
- Fewer errors in data entry
- Enhanced privacy
- Reduced front desk congestion
- Improved patient experience

HEALTHCARE PROVIDER BENEFITS

- Improved patient wait times
- Optimized staffing with reduced overhead costs
- Cost effective co-payment collection (credit card, debit card)
- Improved billing collections
- Secure payment handling
- Improved patient satisfaction
- Increased employee satisfaction

Healthcare Check-in Kiosks are a fast, secure, self-service option for providers that are looking to streamline administrative tasks while enhancing the patient experience with a greater focus on health care. These kiosks are often deployed by:

Hospital Lobbies   Pharmacies   Admitting Departments   Medical Clinics

AUSTIN KIOSK—HEALTHCARE CHECK-IN

FORM AND FUNCTIONALITY FOR PATIENTS

Height Adjustable (HA)

Freestanding (FS)

The Austin Kiosk was created in response to requests for something multi-functional in a small and flexible footprint.

- Available in 4 easy-to-deploy models–Freestanding (FS), Height Adjustable (HA), Desktop (DT), and Wall-mount (WM)
- Several payment device options are available
- The body of the kiosk and the sign panel can be customized using different colors and decals to brand your kiosk and/or identify its purpose
- Cable management fully-enclosed to avoid vandalism or tampering

Desktop (DT)

Wall-mount (WM)
