

# BOULDER KIOSK

## DATA SHEET SIMPLE AND SOPHISTICATED

### *Built for Simple Outdoor Applications*

The Boulder Kiosk is an innovative and efficient solution tailored for outdoor public spaces. It is equipped with a user-friendly touchscreen and offers diverse payment options, including card swipe capabilities. This kiosk is designed to facilitate a broad spectrum of transactions and interactions, ensuring a seamless user experience.

This kiosk is available in both free-standing and wall-mounted configurations to suit various environments. Its design is sleek and uncomplicated, ensuring it blends seamlessly into different settings while maintaining its functional adaptability.

## BRINGING EXCELLENCE TO THE GUEST EXPERIENCE

- Food and Beverage Ordering
- Ticketing
- Parking
- EV Charging Payments

# BOULDER KIOSK

A SIMPLE OUTDOOR WORKHORSE

This outdoor kiosk is a perfect blend of simplicity and robust functionality. Its capabilities extend from food ordering to processing payments for parking or ticket purchases, making it a reliable workhorse in a variety of settings. Despite its powerful features, the kiosk maintains a straightforward, user-friendly design, ensuring accessibility for all users.

The 22" monitor enhances the interactive experience while maintaining an elegant and clean design.

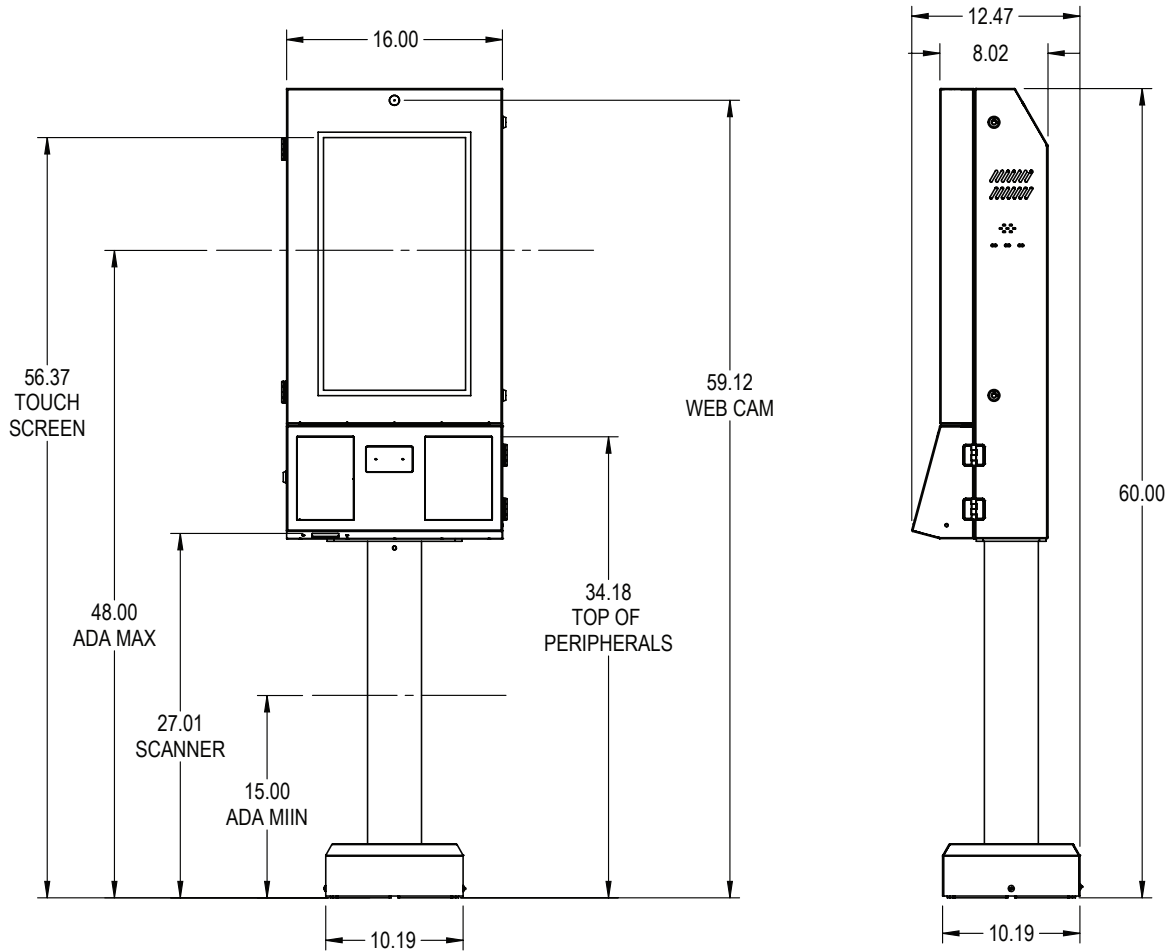

- Wall-mount or free-standing design.
- Two doors with front access for service and maintenance.
- Dual-sided option available.

A simple outdoor unit that is perfect for taking transactions all day long.
