

REDEFINING SELF-SERVICE TECHNOLOGY FOR SELF-CHECKOUT

SANTA FE—FOR SELF-CHECKOUT AND QSR COMPACT AND PURPOSEFUL

The Santa Fe is a powerhouse designed for serious operations. Ideal for Self-Checkout (SCO) and QSR self-ordering, dozens have been deployed in stadium food and beverage and retail settings in addition to healthcare and cafeteria environments. Its compact design and durable construction enable it to function seamlessly in bustling environments, ensuring continuous service without interruption.

This quick to deploy kiosk can rapidly enhance the customer experience while delivering tremendous value and calculated results to the bottom line.

END-USER BENEFITS

- Reduced wait times
- Superior convenience
- Improved order accuracy
- Enhanced customization
- Enriched guest experience

OPERATOR BENEFITS

- Serve more customers, faster
- Labor optimization
- Enhanced employee experience
- Increased average order value
- Upselling opportunities

Self-checkout and self-ordering are fast, secure options for venues looking to ramp up service while improving both the employee and guest experience. With a greater focus on speed of service, these kiosks allow operators to transition their employees to higher valued tasks that provide guests with an improved experience. These kiosks are deployed by:

Stadium Food and Beverage
QSR Operators
Airport Food and Beverage

Hotel Tuck Shops
Corporate/Healthcare Cafeterias

Amusement Park Food and Beverage
Amusement Park Retail Stores
